

OCTOBER 7th 2010

End the degradation of public education

This past year, we were hit with fee increases and budget cuts that greatly diminished our accessibility to higher education. This past year, thousands of students, workers, and faculty across the state voiced their frustration with the fee hikes and budget decreases, as well as lay offs and furlough days. As students, workers, and faculty members affected by these injustices, we will come together again to voice our opinions and strike on "The National Day to Defend Education," October 7th. UCR will rally and mobilize students at the Bell Tower, then march to Downtown Riverside to strike with fellow RCC students.
